

## PRAYER REQUESTS

This is how God works. He puts people in positions where they are desperate for His power, and then He shows His provision in ways that display His greatness. -David Platt

Mighty is He in the pulling down of evil stronghold. Where there seems to be no way, God Almighty is able. There is nothing too big for our God. He is worthy of praise for His power and faithfulness. He formed the world and orchestrates the universe. This is the same God that hears our petitions and prayers. Thank you Lord for your divine strength and wisdom! We are praying for needs that we can see, but trust that You know and control all. May Your will and way be done!
