

July 2021 update

...hope in this life and the life to come...

Thank you for your generous love and concern, which continues to make a difference in the lives of so many people here in Haiti. Your gifts of sacrifice are producing fruit that remains in the lives of Haitians. As you stand together beside these precious children of God, they feel your compassion and support to persevere through life's most trying times and cling to the promises of our Lord.

For the past 11 years, Fedeline has been under the loving care of her attentive grandma, who has regularly brought her to the clinic for free check-ups and a monthly box of food. Those of you who support the food box program by giving \$10/month give hope and nutrition to Fedeline and 119 other families in need. Grandma says, "Now, with the help of the clinic, I have food to give Fedeline. I don't have a gift that I could give all of you who have helped me with this child, but I will never stop praying for you. It is people that I don't even know who are helping me to carry this weight of raising her. God is grand! I serve a big God who is alive. Fedeline is still living and healthy by the grace of God and all those who help the clinic."

Thank you to all of you who have given towards the Planting Hope construction fund. With your help, the two houses are up and will be finished this fall. The workshop and storage area will be built later this fall and made out of repurposed shipping containers. God willing, in the winter the cholera center will be remodeled and used as the clinic and inpatient nutrition center. Many thanks to you who have stood with us as the Lord has allowed us to care for over 160,000 patients during 27 years of serving the Lord here in Haiti. None of this work could happen without your support and participation and we are deeply grateful for your sacrifice and compassion. Together, we are planting hope for many generations to come...hope in this life and the life to come.

It has been widely reported Haiti's President Jovenel Moise was assassinated during the early hours of July 7th. We grieve the loss of life and ask you to join us on our knees as we cry out to the Lord to intervene and establish justice and peace, an abiding hope and a strong future for this beautiful country and these beautiful people. At this time, we are grateful to report all of our staff and children in our care are safe and sound. We are sufficiently supplied and are monitoring the developing situation as additional details emerge.

Do not be overcome by evil,  
but overcome evil with good.

Romans 12:21

I wanted to say thank you today to the clinic in Cazale. My daughter was very sick and malnourished and I found a solution here. I live with my mom and my 2 sisters in a 4 room home. Our home is made of cinder block and tin. We sell all kinds of bananas from a field we have near our home. My daughter was severely malnourished and sick when she first arrived at the clinic. I was very worried about her and wondered if she was going to live, which she has. She is doing well, and for that I want to thank God. During her time of treatment she gained 5 1/2 pounds.

"I brought my son to the clinic today because he has a cold and diarrhea. As we were waiting to be seen, the clinic staff were talking and giving advice about life and spiritual life. I felt like it was a good time to make the decision to follow Christ in my life. They gave me medicine for my son and talked to me about life's road and the choices we make along that road. Walking this road isn't easy. They talked about the advantages when a person walks with God. I was so happy to make this decision because I feel like it is the best and most important decision of my life. I want to tell God a very special thank you because today He's accepted me as His child and I am part of the family of Christ. I ask that you continue to help me pray that God would make a way for me and hold me in His grace so that I can be with Him in the life that is never finished." -Roselene
