

...hope in this life and the life to come...

Fall brings a new school year and lots of opportunities to learn. This month, several students would like to share with you different ways that RHFH supporters have encouraged learning through school sponsorships, Bible study classes, and audio Bibles. Learning is important for all ages!

We, the Lebrun family, say a big thanks to all the sponsors who help support us. We write this note to thank you and to tell you how your help is important to us. Without your help, we could never have gotten as far as we are in school, or even get to go at all. By the grace of your important help to our family, we are all getting close to being done with our schooling. We always pray for you and ask God to continue to protect you with His Grace, give you many years in your life, and never lack so you can always have a little something in your hand to help those in need. We also ask that God direct us during our lives so we can help others in need, like you have helped us. Thank you to infinity. May God always bless you in abundance for all you do for our family.

It is with a happy heart that we write this letter about Carla, our Hope Child. Carla was a child that wasn't too developed when she came to our home, but day-by-day, she gained momentum until she became very interested in her activities, her play, and her school. Carla is someone whom everyone in the family loves because she is very interesting. As her Hope Family, we thank all those who help Carla with school and her care. Because of this, we've been able to build two more rooms to our house to help her and our other children. In addition to Carla, we are raising three other children. We all thank you for your donations to support Carla in school to help her learn. Pray that she will do well in school and God will guide her all of her life. May God look after you and protect you and your families now and forever. Thank you so much!

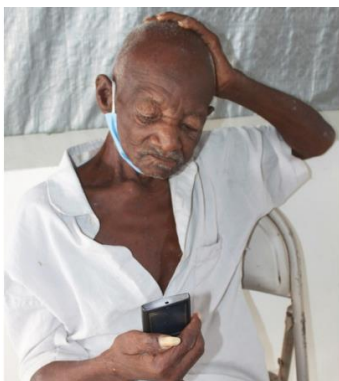

Today my heart is happy to write you. I send you this letter with the purpose to tell you thank you. In life, it is a good thing when someone is helpful because as soon as someone supports someone else he contributes to the progression of life. Today, I would like to express my gratitude to you. Thank you for the help you gave me to go to school.

As Nelson Mandela said, "Education is the most powerful weapon which you can use to change the world."

Surely, with education, the life of anyone can change. Thank you because you contribute to investing in my education. God bless you!

From a student in a recent Bible study class:

Today, I feel that I'm very happy to talk to you about the changes in my life, what the class has done in my life, what thoughts I have about others in the class, and if I like the study. I like the study very much and I respect everyone in it. The study has helped me respect my mother and obey her. I learned that God created everything and we are all children of God. I learned that I should respect all those that I live with and kids that I play with. My thoughts today are that every one of us in the class should think about our lives and what kind of person we want to become in the future. We should go to church. We should all see if we could become like other people we see in our lives that are working hard and trying to make a good life. Like our teachers now, one day when we get older some of us may also become teachers. We can decide to become someone that helps others. Any of us in the class can one day become a leader, senator, or president. This is just something I want the other students to think about. I like this study because without it I wouldn't know the Good News about Jesus and David. I ask God to give strength for our teachers, who He uses to help us become better people. Thank you for listening to me. Thank you to our teachers for their patience. Thank you to all those interested in the study.

G.A. lives in a house made of tin with his child and grandchildren in a village about a 5 hour walk from the clinic. He's been a farmer all his life and coming to the clinic for a while because he isn't feeling well. Recently, when he asked one of our chaplains to pray with him, he gave his heart to the Lord. He also received an audio Bible (pictured) to listen to the Word of God and learn more. Though he is praying for healing here on earth, he knows one day in eternity he will be without illness and whole again. He says, "A big thanks for the way you always receive me and take my case under consideration. I'm not going to be discouraged. I'm just going to wait for the grace of God."
