

# Thank You!

...hope in this life and the life to come...

Food can be medicine for those that are ill. Many of the programs at RHFH aid in this most basic need because it is lacking in the lives of so many, especially children. Your child sponsorship or designated \$10/month for food boxes are giving food to the hungry and bringing them back to good health. Thank you for giving to the Lord for the sake of these children. "For He satisfies the thirsty and fills the hungry with good things." Psalm 107:9

W.A. was swollen with kwashiorkor and treated in the Rescue Center. His parents were encouraged to give him a more balanced diet to maintain his weight and health. After his recovery and discharge, he continues to return monthly for check-ups and receives supplemental rice and beans. His dad, mom, and 4 siblings live in a 3-room rock and clay home covered with a tin roof. They farm beans, corn, bananas, yams, and other root vegetables. He is doing very well and healthy. His mother says, "If I had the possibility, I would give the clinic a big gift, but I will pray for you every day. Thank you for all did for us in the life of my child. God will repay you."

There are 10 of us that live in a 2-room home. It is me and my 3 children, my sister and her husband and their children and my parents. My daughter, Yvania, was coming each week to the outpatient program. But then she became very ill with fever, vomiting and diarrhea. She was admitted for inpatient care. During her time there she was able to gain 9 pounds. I want to thank you for caring for her. The child that is going home to my house today is not the same child that was admitted look at the difference. She is normal now and healthy. I don't really have more words to say but I will pray for you every day that God will give you more strength to continue to help the children. Thank you.

Kenley and his mom came to the clinic in search of help. She is a young mother; her son was born early and her family was upset with her. Every day, everyone was telling her everything she was doing wrong, but no one was telling how to care for her son. She was upset, her mom was upset, and Kenley was losing weight and sick. She needed a place to take a break for a bit, while also getting care for her son. She stayed with us for 35 days. Kenley was able to gain 3 1/2 pounds during that time. His mom was able to learn many ways to better care for her son. It was mostly basic childcare classes, but no one had taken the time to help her learn. This is what she had to say when she was on her way back home. Thank you for helping us to be able to live. Thank you for helping my son. I love him and am glad he is alive. Thank you for teaching me how to care for my son and not yelling at me. I appreciate my time here at the clinic. May God bless you for what you do here in Cazale.

My daughter is my only child. She became sick several months ago. I notice that her feet and legs were swollen and I knew this was not good. After a few days the swelling got worse and so I came to the clinic. I knew that the edema was not a good thing for her. I was very worried. She was admitted for inpatient care in Cazale. After a few weeks her edema went away then she was skinny. I was still worried about her. But then she began to gain weight. Then I saw that she was standing up on her own again and began walking. I was very happy that day. Very happy. She reached her goal weight and was able to return home. I want to say thank you to everyone for the good work you do. People see it and are happy.

Mrs. Roberge is a mom of 7, wife, and street food vendor. When she started feeling bad with headaches, dizziness, and pain, she decided to come to the clinic for a check-up. A consultation and testing helped to diagnose her with hypertension and diabetes. With regular medications and behavior changes, her condition has improved. She often requests prayer and gives God the glory for feeling better. Because of the generosity of RHFH supporters, she was gifted a Bible that she reads and treasures. She is standing on the promises of God and encourages you to do the same.

*Isaiah 41:10 "So do not fear, for I am with you, do not be dismayed, for I am your God. I will strengthen you and help you; I will uphold you with my righteous right hand."*
