

RHFH PRAYER REQUESTS

"Because I live, you will live also." -John 14:19

Prayer Requests of Patients:

- Pray for our patients in our Cholera Treatment Center. Pray the meds/ IV fluids would work to help them recover and preserve their lives. Pray people would listen to education and take necessary precautions to minimize risks of infection/ transmission.
- M.A. asks for prayer for deliverance from spiritual attacks.
- J.R. needs prayer for his body that is swollen.
- M.N. is a mother of two malnourished children who requests prayer that treatments at RHFH would work for her children and that God would provide for her family.
- R.A. is a child with burns who needs prayer for healing.
- P.A. is a man who is suffering from sores all over his body. Pray God would enable medicines to do their job and for him to recover.
- T.V. was cut by a machete and would like prayer for healing so he can return to work in his fields.

Prayer Requests for Our Work:

- Pray for our staff as they scramble to organize staffing and find IV fluids and re-open our Cholera Treatment Center. Pray for helpful collaboration with the Haitian government and ability to procure supplies.
- Pray for the safety of our patients and staff. The gangs continue to creep closer to our region, with a massacre happening in Source Matlas, about 12km from Cazale, where over a dozen people were murdered and buildings burned on November 29. Pray for police and government officials to have a clear response and pathway forward towards restoring peace.
- Pray for those we send to school to pursue education in the medical field. Several of them have been volunteering at the clinic in the past months as their schools have not been functional. There are hopes school can open in January. Pray that would happen and the next generation of medical professionals in Haiti can continue their development.
- Pray for continued favor from God in finding windows to travel and purchase supplies during this crisis. Pray for wisdom and discernment from God to supply us with courage and competency to navigate these days and weeks ahead.
- Pray prayers of thanksgiving that our God moved the hearts of our generous supporters and we exceeded the goal for our Courage in Crisis campaign. With so much uncertainty and fragility in Haiti, it helps us have confidence to face whatever comes knowing we have the resources to respond and a God who continues to provide for our needs!

Prayer Requests for Our Missionaries:

- Pray for Lori and Licia and their families as they remain in Haiti, wrapping up a challenging year, and preparing the Clinic and Rescue Center for a new year.
- Pray for the Zachary family, Anna, and Abigail, as they plan to travel back to the USA for Christmas with family there. Pray the Lord would provide a pathway for them to return in January.
- Pray God would strengthen us all. We are persevering, by His mercy and strength, but we are tired and weary. Pray God continues to give us the connections and compassion we need to make the Good News known down here in Haiti.

We love you and feel loved by you! Thank you, friends! Please send your requests to prayer@realhopeforhaiti.org. May Jesus be huge in your life!
