

HELLO FROM HAITI

Isaiah 58: 6 - 7

I want you to remove the sinful chains, to tear away the ropes of the burdensome yoke, to set free the oppressed, and to break every burdensome yoke. I want you to share your food with the hungry and to provide shelter for homeless, oppressed people. When you see someone naked, clothe him! Don't turn your back on your own flesh and blood!

THANK YOU FOR ALL OF YOUR SUPPORT, DONATIONS, AND HARD WORK TO KEEP THE MISSION SUPPLIED! IT'S ONLY WITH YOUR HELP THAT THE LOVE AND LIGHT OF THE LORD ARE SPREAD TO THE NATIONS.

MESI!!!!

THANK YOU!!!!

SUPPLY SEMI-SPRING TEAM '08

RHFH is usually able to send one semi to Haiti every fall for around \$10,000 (shipping, customs, fees, transport, etc). Every few years we are blessed with the honor and opportunity of sending **two** semi trailers full of needed supplies to Haiti. This year was one of those God things where He plans things out so much better than we do. Thank you to those who were obedient to the Lord in their giving! Thank you Lord for making a way for our needs!

Praying for Protection

Off to Haiti....

Unloading and Sorting

You can help get food and supplies to those in need.....

SPONSOR A PALLET FOR \$250

Three of the 40 pallets are sponsored.

Food Boxes

Through the help of Feed My Starving Children and Christian Aid Ministries, we

have been able to give a steady supply of food to 38 households that benefit 237 people. During the current food crisis here in Haiti, this has been a huge blessing for these families. Please continue to pray for these Kingdom connections to get food to those in desperate need.

This woman waits at her "home" for her food box.

Literacy Class

About 53% of Haitians do not know how to read and write. Many of our

employees are among these. We have started a class (reading, writing, and math) for 16 women to empower them with basic knowledge that many of us take for granted. If this class goes well and is productive, we will consider offering additional free classes to the community. You can sponsor a class by paying a teacher \$40/month. Classes are 2hrs/day, 3 days/wk until all students excel. This class is expected to last 6-9 months.

Sewing School

The community group has started a sewing school for 14 of it's members. This is a 2 year program and they are about half way through it. The main goal of this class is to give each student the knowledge and skills to sew clothing to provide for some of the basic needs of their families. The school is free to the students. The cost of one teacher is \$70 per month. Material, buttons, zippers, thread, and other notions can be donated to be shipped on the supply semi this fall. Email info@realhopeforhaiti.org for more info.

School Sponsorships

Education is something that many of us take for granted. In Haiti, many children do not have the privilege to attend school and learn. Fifty percent of the population is under the age of 15. Most parents would like to send all their children to school so that they can receive a good education. However, many are only able to send a few of their children to school, while the other children are left at home. God has placed a great desire in our heart to increase the number of children who are able to gain a quality education that will provide these children with more opportunities in life. We hope and pray, as these children grow and learn, that they will in return give back to there country and village here in Cazale.

GIVE a One time gift of \$200 or a monthly gift of \$17 to sponsor one child.

Fish Seminar

Love-A-Child hosted a seminar by Morning Star Fisherman to train Haitians in implementing and maintaining a series of tanks to raise fish for extra food and income. We were able to send 4 members from the community group and hope to have a fish farm here in Cazale in the future. Please stand with us in prayers as the RHFH needs to buy land for the mission to build lasting and continuing help like this to the Haitian people.

2007 Clinic Report

Number of Consultations	44204
Number of adults	30264
Number of children (0-14 yrs)	13574
Number of newborns	593
Number of prenatal consultations	4295
Number of dressings	4461

HIV/AIDS	606
Cough and cold	26535
Tuberculosis	4780
Typhoid Fever	416
Fungal infections	2586
Diabetics	1101

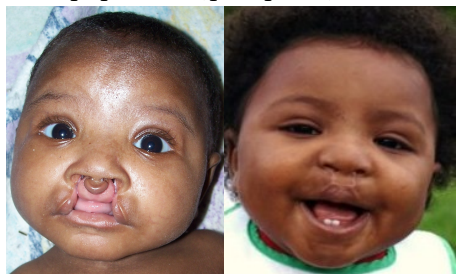

Needed: TRUCK

The mission is in need of a Toyota, heavy duty, 4x4 truck to transport medicine & supplies, run errands, distribute humanitarian items, pick-up donated items, and get around the country. We have received **\$23,756** out of the **\$40,000** needed to purchase the truck in Haiti. We are **59%** to our goal!! Many thanks to Hickory Grove Church for their efforts in raising these funds. We are still seeking donations and appreciate your generosity.

Medical Visas

Often, sick children cannot find the medical care here in Haiti that they need to survive and be healthy. Sonel (club feet) and Alex (encephalocele) have had their surgeries and are doing well. Roubens and Schnider (cleft lip/palate) will return in August. Funds are being raised to build a new house for Schnider's family. Fedlene and Britnie (abiguous genitalia) will travel to NC in Aug. Saintana, Ana, and Fedna are still waiting for their surgeries. We thank The Medical Advocacy Team www.medicaladvocacyteam.blogspot.com for all of their hard work to arrange care and host families. A big thanks to all those that donated funds for their paperwork, passports, & travel.

Accompagnateur Program

From Volunteer Graham:

Real Hope For Haiti provides health care for some of the poorest, most destitute populations in this Hemisphere. And as informative as Lori and Licia make their blogs, I can assure you they do not convey the real hope they are offering to the people of Haiti. Every day I have been here people leave gifts of appreciation for their work, they heap praise upon the clinic and rescue center for saving their lives, and church groups seem to come weekly to pray for the work of the clinic.

As a greater service to those who have HIV/AIDS and tuberculosis, I have been helping the clinic start an *accompagnateur* program. *Accompagnateur* is a French word meaning roughly "one who accompanies." This is a perfect job

description of what *Accompagnateurs*

do. They visit patients who have HIV/AIDS and/or tuberculosis each and verify, visually, that they take their medicine. This is a form of "direct observed therapy" (DOT) treatment.

Accompagnateur programs began in Haiti 20 years ago and were so successful in helping patients through their illness and to take their medicine that the cities of Boston & New York have *accompagnateur* systems of their own, as have organizations the world over.

The Real Hope For Haiti *accompagnateur* training began in June and July 1st was the first day that the *accompagnateurs* took on their responsibilities of being responsible for patients medication and visiting their patients each day. Currently, we are able to provide one *acomppagnateur* for Cazale and one for Fond Blancs, a town about an hour walk above Cazale. In addition to delivering medicine each day and checking up on the clinics most vulnerable patients, the *accompagnateurs* will be Real Hope For Haiti's eyes and ears to keep on the lookout for health problems in their community. This is critical to the missions goal of health education and disease prevention.

In addition to *accompagnateurs*, Real Hope For Haiti will continue to provide monetary, transportation, and food support to those HIV/AIDS and TB patients otherwise unable to support themselves and their families during their illnesses. Strengthening and preserving families is a critical part of the work of Real Hope For Haiti.

In August, Gilbert, our lead *accompagnateur*, will go to Cange for further certification to lead training classes. Our goal is to have *accompagnateurs* working in each of the villages and cities in the clinic's zones to ensure good health outcomes and maintain community outreach. If you would like to commit funds to helping us grow the *accompagnateur* program and provide needed services for our HIV/AIDS and tuberculosis patients, please write "*accompagnateur*" in your check memo or on the Paypal payment description. None of the Real Hope For Haiti's achievements would be possible without you. Thank you for making a difference and giving our patients hope.

Rescue Center Kids

Elida

Pascal

Sophia

GVADK

The community group (GVADK) is currently working on several exciting projects. One of our

activities is to build 19 outhouses in our community in places that have no latrine

access. Contact us if you would like to sponsor one. We are doing some erosion control with vetiver

grass. We have repaired the road in several places where rain water has eroded and made driving dangerous.

We helped repair the public water pipes and secure them to prevent future problems. If you are interested in helping with community planned and implemented projects, please contact GVADK@hotmail.com.

Volunteers & Visitors

Joy helped in the clinic and Rescue Center for a week in June. This is her 2nd summer helping.

Glenda & Michelle (Canada) came for a couple of weeks in June. They played and cared for the kids in the RC, counted pills and helped in the clinic.

Tori (also Canada) came for a week to help with the Rescue Center, clinic, community group, and some office work.

Graham (USA) came to start the Accompagnateur Program, which was described earlier. He also completed a survey, hiked for several days, helped with the community group, and lab. He has worked summers in Haiti for 4 yrs & is currently in Botswana.

Why I give...

I love these guys and believe in what they are doing. I love what they are doing to help the Haitian people. I know that the financial support I give goes directly to

helping the Haitian people. They truly are the hands and feet of Jesus as they minister in the medical clinic and rescue center. They give all that they have to reach out to those in need. I have seen this first hand and know that the money and supplies that I give goes directly to the people in Haiti. I can't think of a better ministry to give my support to. This is a ministry of the heart that not only touches the physical needs of the people, but touches them emotionally and spiritually. May God continue to bless them, but even in bigger measures. -C.B.
