

# REAL HOPE FOR HAITI

August  
2025

**MISSION: TO DELIVER HOPE FOR THIS LIFE AND THE LIFE TO COME THROUGH COMPASSIONATE MEDICAL CARE, QUALITY HEALTH EDUCATION, INTENSIVE MALNUTRITION INTERVENTIONS, ACTIVE COMMUNITY DEVELOPMENT, AND GOSPEL FOCUSED OUTREACH, ALL IN THE LOVE AND NAME OF JESUS.**

Since 2003, GVADK has empowered Cazal through community-driven projects. With your financial support, donated materials, expert advice, and prayers, we've: secured legal recognition; built a vibrant tree nursery planting vetiver and saplings; constructed erosion-fighting earthbag walls; repaired irrigation canals; provided goats, seeds, and tools to farmers; supplied school materials; and built homes for hurricane survivors. Today, our volunteers remain active, inspired by your partnership, as we continue identifying needs and delivering sustainable solutions across the region.

Rose-Berline, a 20-month-old in Cabaret, lost her mother at birth and was raised by her father's family. At just three days old, we provided infant formula and trained her aunts in essential care. Monthly check-ups tracked her progress—from a fragile 7 pounds to a healthy 24 pounds. Thank you to our generous donors. Your support nourishes lives and strengthens our community every day.

Your support made safe homes and reliable water possible. After the 2008 hurricane, donor-funded materials and loans helped us build sturdy houses for displaced families. Today, irrigation canals—rebuilt with your financial and technical assistance—flow once more, bringing life to local gardens. Thank you for turning compassion into concrete change!

Because of your donations, GVADK's tree nursery is thriving: we've planted saplings and vetiver grass to guard against erosion. Your funding bought tools, your advice guided our nursery design, and your prayers sustained our team through long days in the sun. Together we're greening our hillsides and protecting neighbors below.

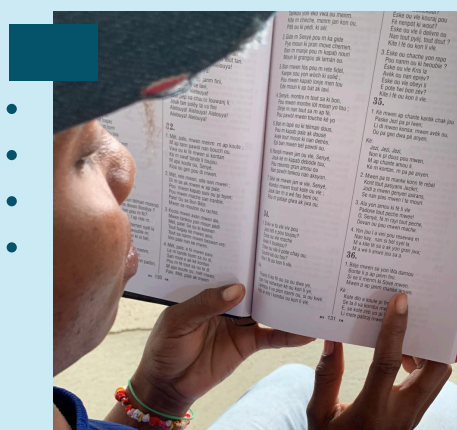

**VISION:** Physically, relationally, and spiritually healthy people contributing to thriving families and strong communities as God designed and desires.

When Fedna was just two months old, a tragic accident left the entire left side of her body badly burned. Doctors at a nearby hospital said there was no hope—even recommending amputation. Refusing to give up, her mother brought her to our clinic, but despair drove them away before follow-up care could begin. Weeks later, a member of our team used a trusty megaphone at the local market to call for Fedna. Answering that call, her mother returned with her daughter, determined to find help. We referred Fedna to a specialized hospital for life-changing surgery, and she spent months with us afterward, receiving careful wound care, physical therapy, and love.

This year, at age 23, Fedna walked back into our clinic—healthy, smiling, and radiant. Her mother’s eyes brimmed with gratitude: “I never imagined she would not only survive but grow strong and joyful.” Moments like these remind us that hope, compassion, and skilled care transform lives in our community. Thank you for making stories like Fedna’s possible.

Wislande, 25, came to our clinic seeking relief from a persistent cough. Instead of just medicine, our chaplains listened to her, prayed with her, and shared the love of Jesus. Knowing she enjoys singing, they gave her a song of hope to lift her spirits at home. Moved by their kindness and the message of Christ, Wislande chose to follow Jesus, declaring she found true happiness in God’s family. Every day, we witness lives transformed—not only through physical care but by the presence of God in prayers, songs, and acts of compassion. Thank you for supporting this vital work and bringing new hope to young people like Wislande.

The piped water system provides clean drinking water and supports meal preparation for children at our nutrition center. When the tap developed a technical issue, your generous donations funded the necessary parts and repairs. Thanks to your support, our entire community now enjoys reliable piped water for cooking, drinking, cleaning, and more. Your generosity turns need into nourishment and hygiene. Thank you for keeping life flowing and health thriving for everyone we serve.
