

REAL HOPE FOR HAITI

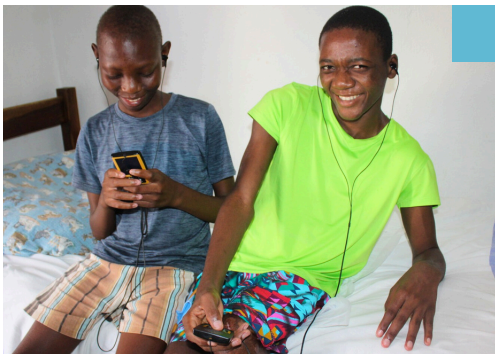

March
2026

MISSION: TO DELIVER HOPE FOR THIS LIFE AND THE LIFE TO COME THROUGH COMPASSIONATE MEDICAL CARE, QUALITY HEALTH EDUCATION, INTENSIVE MALNUTRITION INTERVENTIONS, ACTIVE COMMUNITY DEVELOPMENT, AND GOSPEL FOCUSED OUTREACH, ALL IN THE LOVE AND NAME OF JESUS.

My name is Izabella, and I am a child in the Hope program. This program helps me a lot in my life. Thanks to the Hope program, I can go to school and learn many things every day. I love mathematics because it teaches me how to solve problems and think clearly. I also enjoy French reading because it helps me understand stories and learn new words. Thank you very much to everyone who supports the Hope program. Without you, I would not have this opportunity. I am very happy that I can now learn and grow in school.

Dickenson and Renand live at our nutrition center, each facing life's challenges with courage. When they received audio Bibles as gifts, joy filled their hearts. "Every day, I will listen to God's Word to find strength in my weakness," Dickenson said with a bright smile. Now, day and night, they listen to these messages, learning to love more and live with hope in God.

My name is Elmise, and I am very happy to be part of the Hope Family program. Every day, I can go to school, learn new things, and use all the school materials I have thanks to the support of people who believe in me. I would like to say thank you with all my heart to everyone who helps me grow and learn. Without you, I would not have this opportunity. Your support gives me strength, courage, and love to continue doing well in school and to become a knowledgeable person.

My name is Medjina and I want to say thank you to everyone who has supported my education. Because of you, I am able to go to school, learn, and grow. Since joining the Hope Program, I have received the school supplies and materials I need to succeed, and that support has made a huge difference in my life. Your generosity, love, and encouragement have given me the confidence to keep studying and pursuing my dreams. I am so grateful for each of you.

VISION: Physically, relationally, and spiritually healthy people contributing to thriving families and strong communities as God designed and desires.

On a sunny September morning, Colamene, an 82-year-old woman, sat quietly in our clinic's waiting area during health education. That month's topic was "Strategies to Combat Discouragement." After sharing a short story, we invited patients to reflect on their own struggles. When asked about the last time she felt discouraged, Colamene lifted her head slowly and said softly, "My whole life has been discouragement." She explained that she is the mother of ten children and has buried nine of them. Some died at 8, 10, and 15 years old. Her only surviving child is disabled. For years, she carried him on her back to school every day until ninth grade, when she could no longer afford it. Her husband passed away long ago, leaving her to carry life's burdens alone.

The room fell silent. When we asked what keeps her going, she smiled peacefully: "God. Through all these trials, He has never abandoned me. He is the only reason I am alive today." We prayed together, reminding her she is not alone. Colamene's story is a powerful testimony of resilience and unwavering faith.

Six-year-old Djounie arrived at our clinic unable to eat. A painful dental abscess had made every bite unbearable, causing dangerous weight loss. Our nursing team treated the infection and enrolled Djounie in the Medika Mamba nutrition program. Her mother carefully followed all medical instructions, ensuring Djounie took her medicine and consumed the nutritious sacks daily. At her follow-up visit, the transformation was remarkable. The abscess had healed, and Djounie had gained nearly two pounds. She was eating, smiling, and playing again. Thanks to our donors, the Medika Mamba program helps children like Djounie recover and reclaim their childhood.

My name is Andreson, and I want to say thank you to everyone who supports me. Because of your help, I have the chance to go to school and learn every day. Without this support, it would be very hard for me to continue my education. Since I joined the program, I have received everything I need for school. This gives me courage to keep going and not give up on my dreams. Thank you so much for the love, care, and hope you bring into my life. You are making a real difference for me.
