

REAL HOPE FOR HAITI

September
2026

MISSION: TO DELIVER HOPE FOR THIS LIFE AND THE LIFE TO COME THROUGH COMPASSIONATE MEDICAL CARE, QUALITY HEALTH EDUCATION, INTENSIVE MALNUTRITION INTERVENTIONS, ACTIVE COMMUNITY DEVELOPMENT, AND GOSPEL FOCUSED OUTREACH, ALL IN THE LOVE AND NAME OF JESUS.

People often think fixing malnutrition is simple: give Medika Mamba, problem solved. But that's not how it works. When a malnourished child walks through our door, our team springs into action. We check vital signs, run lab tests, measure weight. We ask parents careful questions about what's been happening. We monitor blood sugar levels around the clock. We teach families about nutrition and hygiene. It's teamwork. It's dedication. It's our nurses and doctors showing up every single day, caring for these children like they're their own. Your donations pay these incredible people. They're the reason children survive. Thank you for believing in our team.

Four-month-old twins arrived at our clinic fighting for their lives. Both had severe malnutrition and one was dangerously anemic. For one month, they received daily care and infant formula thanks to generous donors. Day by day, they grew stronger. Their weight climbed. The anemic twin's blood improved dramatically. Today, both boys are thriving and healthy. Double the babies. Double the joy. All because you cared enough to help.

These medicines look simple, in the hands of our medical team, they become lifelines. Asquiou was dying when he first came. His hair had turned reddish from severe malnutrition. He couldn't hold up his head. Infection was ravaging his body. These exact medicines saved him. Day by day, they brought him back to life. Every bottle, every tablet you see in this photo represents a child given a second chance. Your donation didn't just buy supplies. It brought hope and survival. Thank you for seeing what these medicines can do.

Angeline arrived barely clinging to life weighing only 10 pounds 13 ounces at 11 months. Her mother had made the journey, hoping we could help. Because of your donations, we had everything she needed: medicines, therapeutic milk, lab equipment, and a trained team ready to act immediately. Within hours, treatment began. Angeline fought and survived. Today, she's thriving because you believed vulnerable babies deserve a fighting chance. Your generosity saves lives.

VISION: Physically, relationally, and spiritually healthy people contributing to thriving families and strong communities as God designed and desires.

Rodson arrived at clinic struggling with anemia, UTI, and underweight. His parents were worried and didn't know where to turn. Our team ran tests, diagnosed the problems, and prescribed treatment to fight the infection and rebuild his red blood cells, but medicine alone wasn't enough. Your donations made the difference. Because of your generosity, we could enroll Rodson in our nutrition program. We had the resources to teach his mother how to prepare nutritious meals at home. We had the staff to monitor his progress carefully. Week by week, Rodson improved. His strength returned. His color

brightened. His energy came back. Today, he's a healthy, thriving 6 yr old because you believed he deserved care. Your donations gave a family hope and a child his future back.

Recently, RHFH brought together leaders from 20 churches in Delice to discuss strengthening churches and advancing evangelization. Under Pastor Déglas Erilus' direction, leaders shared their challenges and identified three priorities: training, documentation, and leadership development. What moved us most was their response. They recognized God's hand in this gathering and embraced collaboration as a privilege. They see this partnership as an opportunity to take their ministry to new levels. Your donations support this spiritual work in our communities. Thank you for investing in kingdom advancement and helping churches grow stronger together.

Yvenatha is a 28-year-old mother whose son became seriously ill. While her son received medical care at RHFH, Yvenatha met with our chaplains, who shared God's message of eternal life with her. Their words touched her heart, and she chose to place God at the center of her life and her son's life. Through our donors' generosity, we were able to give her a Bible so she could continue growing in her faith. Yvenatha came seeking healing for her son, but she also found hope, faith, and the gift of eternal life. Thank you for making this ministry possible!
