Our Work

- Please pray for Haiti as the much anticipated elections set for December 13, 2026 were recently postponed indefinitely due to continued insecurity. It has been going on 7 years since a functional government was in place and 11 years since there was a democratic election in Haiti. The current political malaise is preventing progress and perpetuating existing problems. Please pray for peace and adequate security to be established so the country can start finding solutions to move forward.
- Please pray for the security in Cazale. We once again had armed men come and steal another of our semi containers up by our Cholera Treatment Center. This is the first time they have returned to take property from us in over a year.

Our Work

- Pray for us as we navigate some changing requirements of the government of Haiti for organizations operating here. The government's new fiscal year began this month and we are trying to interpret the new obligations we have to remain compliant as an organization in Haiti.
- Pray as we train someone to cover for our lab technician who will be taking a three-month maternity leave later this year. We are thankful for this Provision from the Lord to cover this very important role while she is away.

- Pray for the families in our community, especially as our chaplains conclude a teaching course on God's design for the family. Pray for those who participated to take seriously the responsibilities God has entrusted to them, relying on Him for strength, and watching God bless their relationships and home as they obey His Word.

Our Missionaries

- Pray for Licia Betor as she is having a small surgery on October 30th. This is associated with her surgery in May. That wound did not fully heal, so they are opening it back up in order to heal properly. We are thankful to report the first surgery did resolve her symptoms and she has been feeling much better, so it was a success. This second surgery is only necessary to complete the healing of the resulting wound.
- Pray for Lori and Charly as they continue to labor in Cazale. It has been a long and hard season. Pray for Charly as he manages some projects constructing a shade house as well as some other small building and repair projects. Pray for Lori as she manages the clinic and helps lead the organization as our board president.
